LIGHTING CONTROL

COMMERCIAL LIGHTING CONTROL SOLUTIONS

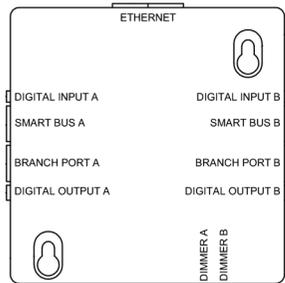

ToucheControls.com | 888.841.4356

Touché Lighting Control made simple.

At Touché, we believe that simplicity represents creative ideas, along with intelligent thinking. This is reflected by our multifunctional devices and our efficient system architecture.

1 STEP ONE

Simply wire the Touché Room Manager to power 120 V or 277 V.

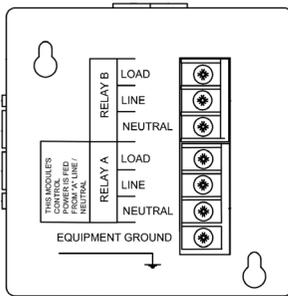

Front of Module

2 STEP TWO

Wire the light fixtures that you want to control to the back of the Room Manager.

- 20 amps each channel.
- Electrically isolated channels.

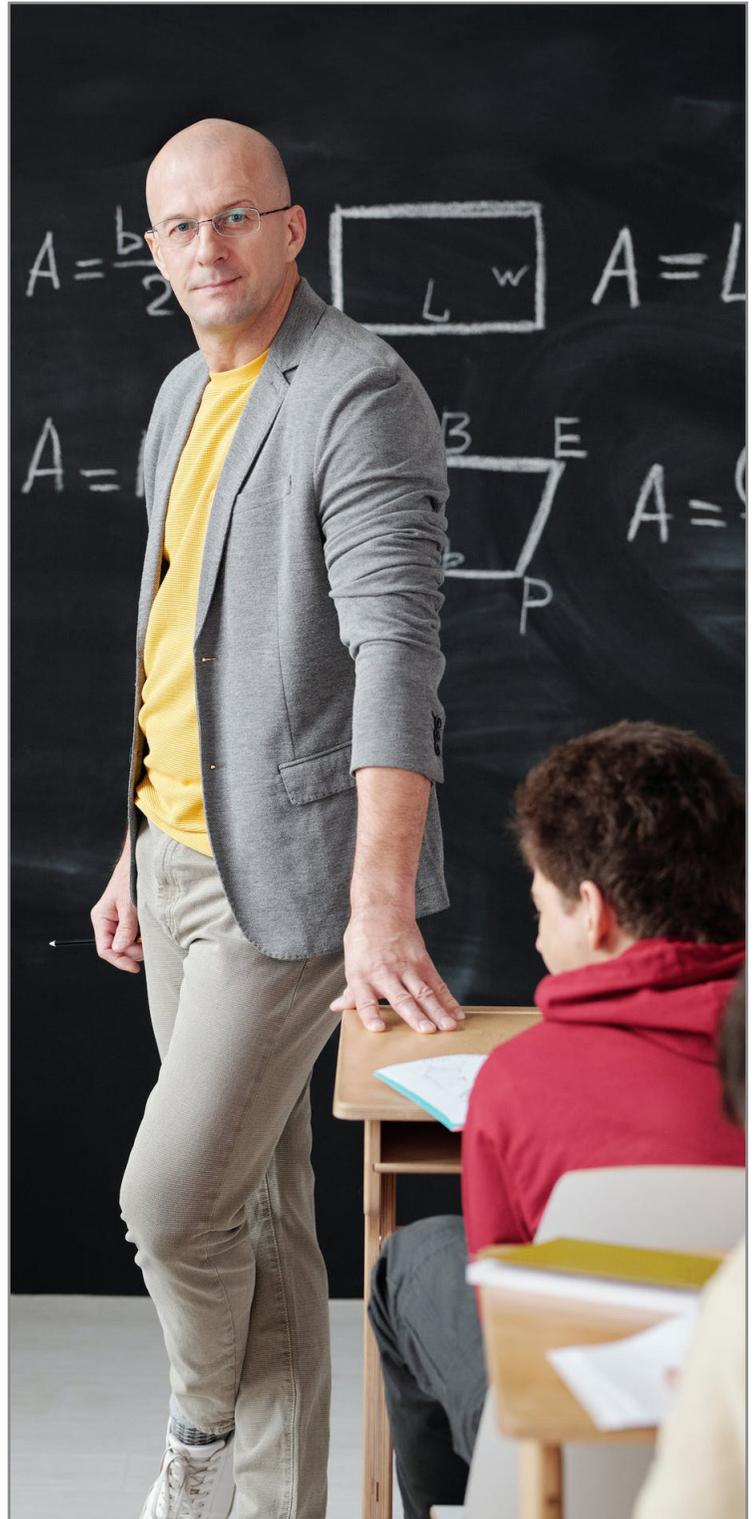

Back of Module

3 STEP THREE

Via Cat 5 cable, plug in your sensor(s) and wall station(s).

No field start-up or programming. You're done! It works! In just three easy steps.

Example: Controlling a School

Schools can be some of the most challenging projects for contractors. Because they are in the public's eye, they are among the most cost-competitive opportunities out there. Yet schools require some of the highest levels of integration and energy reduction demands in the market.

Touché solves these challenges with a simple-to-understand system architecture and built-in feature set to meet any commercial application.

How do we do that?

- ✔ Plug-and-play connectivity lessens installation challenges.
- ✔ Only three device types are needed for nearly any job: Room Manager, Smart Sensor, and Wall Station.
- ✔ Our products are designed and manufactured in America (BAA/TAA).
- ✔ We offer simple, full-featured control platforms at competitive pricing.
- ✔ Modular, scalable design — as simple and cost-efficient as it gets.

Why Touché

Touché Lighting Control develops innovative technologies that focus on simplicity. We manufacture lighting controls that have enhanced features, allowing users to install them intuitively and manage their environments. We understand that a lighting control solution should just work — a system that is efficiently designed, easily installed, and simply operated.

Our Benefits

- ✓ Simple and fast to install.
- ✓ On and off the job in minutes.
- ✓ No field programming or start-up required.
- ✓ When assistance or minor adjustments are needed, call us or use our app. We are here for you.
- ✓ Affordable. Won't break your budget!

Installing is as easy as 1, 2, 3.

- 1 Plug in sensors and wall stations via Cat 5.
- 2 Wire line and loads to a Room Manager.
- 3 Power it up.

And You're Done!

Nike Flagship Retail and East Coast Offices — Manhattan, NY

Where can I use Touché?

- Schools
- Colleges
- Commercial Office Spaces
- Hotels
- Retail
- Hospitals
- Restaurants/Bars
- Places of Worship
- Warehouses

Georgia World Congress Center — Atlanta, GA

Who's using Touché?

- Grand Hyatt Hotel
- Sweetwater
- Amazon
- Avon
- Nike
- Detroit Metro Airport
- UTMB Health
- City of Hidalgo Government Building
- Mayo Convention Center
- Lone Star Flight Museum

Touché is as simple as 1, 2, 3, and more!

Now, just because our control systems are simple to install and operate doesn't mean we're featureless. On the contrary, here are just some of our standard features:

Plug load control

Daylight control

Network ready

We understand firsthand why the contractor is so important!

- Reduced cost
- Easier installation
- Flexible (for project changes)
- Scalable (to meet project growth)
- No field commissioning required

CONTACT TOUCHÉ TODAY!

Eliminate your headaches with our solution-driven approach

Today's construction schedules and project demands are challenging enough without adding the frustration of a lighting control system that does not do what it is supposed to do. Touché's solution-driven design works right out of the box.

But we are all defined by our ability to perform when things don't go as planned. Touché knows that speaking with a real person who knows how to help is imperative to your success when you don't understand something. That is why our support services are touted as some of the best in the industry.

With our Touché Compose app and DirectConnect support, we will simplify even the most complicated projects.

Complex buildings all controlled in a simple app.

Our app, with our support, makes even the most complex projects simple.
